Contact Julie: julieartlessons@gmail.com

240.00 per workshop (Bring a snack). 2 workshops

all day camp is 430.00 (bring snack and lunch.)

Registration 25.00.

Mixed Media A

Mixed Media and One Point Perspective. Mixed media is used to paint and print in this piece. Drawing into a one-point perspective sketch students will learn how to use the perspective in drawing skyscraper buildings.

Egyptian Clay Relief.

Looking at examples of Ancient Egyptian wall paintings, students are given a slab of clay to carve into in creating their own Egyptian relief.

Printmaking and Drawing.

This project is about drawing a design, playing with texture, and printing their work on colored and designed paper.

Pointalism and the Reflection of color.

Students will build a painting using a pointillism technique.

Sculpture

learn to draw and build 3D Shapes.

Ancient Pottery

Students build an ancient pot from coiled clay and finish with a painted design.

Environmental design. Students complete a drawing based on their own environmental design and create a final sculpture.

Mixed Media B

Paul Klee Cubist Landscapes and Music.

Working with paint students will design their own

landscape with shapes and lines and paint them with multiple colors in creating their own composition. As well as introduced to the artist Paul Klee who was greatly influenced by music and the visual arts.

Georgia O'keeffe and Appreciation for Nature.

Working with large leaf shapes students will develop their own color scheme in creating an up close designed painting.

Leonardo De Vinci and invention. Students will sketch and develop an invention.

Story Tellers Story tellers from the Pueblo Native American culture will be discussed and how to create a storyteller.

Drawing The Creative Portrait

Frida Kahlo Oil and Chalk Pastel Portraits.

Looking at the many portraits of Frida Kahlo, Students will draw inspiration from images derived from her work. Learning the measurements of facial features.

Chuck Close and Self Portraits. Students will look at how Chuck Close creates his portraits and invent one of their own.

Print Making With the drawing of self portraits, students will explore a printing technique using three different print colors.

Drawing your Neighbor. Students will get a chance to draw each other in class as well as pose for classmate drawings.

Stop Motion Film Workshop This workshop explores how cartoons were created in the 1950's using stop motion film. Students will create a stop motion using multiple media to produce a backdrop, as drawings of constructed characters move through student created scenes.

Poster Design. Students will design a poster to the film they made in class. Looking at type face design, and use multi media.

ANIME Students will learn how to build an anime character and explore creating their own story board using mixed media in each project.

Exploration in Painting and Music,

ART&RHYTHM Through 4 different painting projects students explore different techniques of painting using Acrylic, watercolor, and the pallet knife.

Exploration in Watercolor. Learn to use the watercolor in 3 different styles – Sumi brush strokes, drip, and layer to build a full painting.
