Age7-TEEN Summer Workshop Schedule 2020

New policy for conducting workshops Note: Each student will have an assigned creative space to work in for the week, to practicing social distancing in the studio. All Students will need to bring their own masks and hand sanitizer to use before entering into the studio and before using materials pre-set up for each student (each student will use the exact same material set up each day so as not to mix with other students materials). Materials and benches are wiped down and de-sanitized after each use. Instructor will have a mask on during classes and will demonstrate at a distance.
